

Compumotor Analog Output	
Model Number	Description
M2003-N24-P0283	0-2.5 Volt output with two latching switches, one momentary switch and 10 foot unterminated cable; no connector.
M2003-N24-P0284	0-5 Volt output with two latching switches, one momentary switch and 10 foot unterminated cable; no connector.
M2003-N3-P0322	0-2.5 Volt output with three latching switches, one momentary push-button switch on joystick and 10 foot unterminated cable; no connector.
M2003-N3-P0323	0-5 Volt output with three latching switches, one momentary push-button switch on joystick and 10 foot unterminated cable; no connector.
M2003-N3-P0511	0-2.5 Volt output with two latching switches, one momentary switch, one push-button switch on joystick and 10 foot unterminated cable; no connector.
M2003-N3-P0512	0-5 Volt output with two latching switches, one momentary switch, one push-button switch on joystick and 10 foot unterminated cable; no connector.
