

F10U0-NxW Medical Mouse

NEMA 4 (IP66) OEM MEDICAL MOUSE

F10U0-NxW OEM MEDICAL MOUSE

CTI's OEM Cleanroom / Medical Mouse is a cursor controller or pointing device that is uniquely designed for usage in areas where ensured cleaning, disinfecting, or sterilization is a necessity. The open frame structure with ample ribbon cable offers the medical device manufacturer ease of placement of the interface PCB and three button switchpad. An advanced molecular bonding coating process seals the Medical Mouse against penetration from biohazard materials. With unmatched reliability and durability under harsh conditions the Medical Mouse is guaranteed to provide many years of uninterrupted service, [take a look here.](#)

The NEMA 4 (IP66) sealing Medical Mouse is unaffected by extreme temperatures or exposure to harsh solid and/or liquid contaminants. The Cleanroom / Medical Mouse is a very precise pointing device with a left mouse button on top of the N3W and N33W joysticks for rapid point and click selection capability, even while wearing safety gloves. Alternately, the USB Interface PCB accepts external switch inputs for left, middle, and right mouse button functionality.

CTI's confidence in the OEM Cleanroom / Medical Mouse is backed by a One Year Warranty. A thorough analysis of healthcare safety, productivity enhancements, and financial savings solidifies the investment decision. For clinicians and laboratory scientists, the ability to hygienically cleanse the Medical Mouse of infectious particles and pathogens will ensure a healthier and safer environment.

F10U0-NxW STANDARD FEATURES

- Standard Operating Temperature -0°C to 80°C (32°F to 176°F)
- Optional Operating Temperature -40°C to 80°C (-40°F to 176°F) - Low Temperature Spring
- Non-contacting sensors and Sub-Assemblies with high reliability and durability (MTBF 100,000+ hours, 10,000,000+ deflections)
- White FDA Silicone Boot - NEMA 4 (IP66) sealing - Operation in harsh environmental conditions
- Parylene Coated boot and knob
- Signal Interference protection (EMI/RFI)
- Joystick movement is Spring Return to Center
- Conformal Coating of PCB protects electronic components
- Optional USB cable with "A" Plug (1.0 - 9.5ft)
- Left Mouse Button on top of N3W and N33W joystick knob
- Threaded Brass Inserts - Provides reliable and secure NEMA 4 (IP66) sealing and eliminates breakage issues

F10U0-NxW Medical Mouse

NEMA 4 (IP66) OEM MEDICAL MOUSE

F10U0-NxW SPECIFICATION

N2W Joystick Dimensions	Length x Width: 1.28" SQ (32.51mm SQ)	Height Above Panel: 1.6" (40.64mm)	Depth Below Panel: 3.13" (79.50mm)
N24W Joystick Dimensions	Length x Width: 1.28" SQ (32.51mm SQ)	Height Above Panel: 2.1" (54.36mm)	Depth Below Panel: 3.63" (92.20mm)
N3W Joystick Dimensions	Length x Width: 1.28" SQ (32.51mm SQ)	Height Above Panel: 2.1" (54.36mm)	Depth Below Panel: 3.63" (92.20mm)
N33W Joystick Dimensions	Length x Width: 1.28" SQ (32.51mm SQ)	Height Above Panel: 3.1" (78.74mm)	Depth Below Panel: 4.63" (117.60mm)
CTI-67 PCB Dimensions	Length: 3.29" (83.57mm)	Width: 2.15" (54.61mm)	Overall Height 0.40" (10.21mm)
Switch Pad Dimensions	Length: 2.66" (67.56mm)	Width: 1.33" (33.78mm)	Overall Height 0.30" (7.59mm)
Operating Systems	Microsoft Windows® Operating System (Windows XP, Windows 7, Windows 8, Windows 10)		
	Mac OS X® or Linux OS requires compliant USB Device Class Definition for Human Interface Devices 1.11		

F10U0-NxW ELECTRICAL SPECIFICATION

MTBF	Greater than 100,000 hours
Cabling	Optional USB with "A" Plug (1.0-9.5ft. in half foot increments)
Power	+5V with less than 100mA (USB Port Standard)

F10U0-NxW MECHANICAL SPECIFICATION

N2W Specifications	Knob Type Non-Pushbutton	Sensor Technology Inductive (Non-Contacting)	
N24W Specifications	Knob Type Non-Pushbutton	Sensor Technology Inductive (Non-Contacting)	
N3W Specifications	Knob Type Pushbutton	Sensor Technology Inductive / Momentary Pushbutton	
N33W Specifications	Knob Type Pushbutton	Sensor Technology Inductive / Momentary Pushbutton	
Life Expectancy (Joystick)	X & Y Axes 10,000,000 random deflections	Normally Open Momentary Pushbutton 1,000,000+ cycles	
Joystick Movement	Simultaneous X & Y Axes Spring Return to Center		
Joystick Operational Force	X & Y Breakout Force 140g (typical)	X & Y Full Scale Force 235g (typical)	
Shock (Joystick)	Peak Value 30g (typical)	Peak Duration 11ms	Waveform Half Sine
Vibration	Frequency / Displacement	5-25 Hz / 0.1" (typical)	25-55 Hz / 0.03" (typical)

F10U0-NxW ENVIRONMENTAL SPECIFICATION

Operating Temperature	-0° to 80° C / 32° to 176° F	-40° to 80° C / -40° to 176° F (Optional)
Storage Temperature	-40° to 80° C / -40° to 176° F	
Relative Humidity	100% condensing (when installed properly)	
Sealing Rating	NEMA 4 (IP66) (when installed properly)	
Protection	Parylene Coated boot and knob - toughest molecular barrier protection	

CONFORMANCE / CERTIFICATIONS / COMPLIANCE

subject to manufacturing options applied

U.S.A. Standards	U.S. FCC 47 CFR 15 Class A & B	RF Emissions Compliant 8Kv (Contact), 15Kv (Air)
	MIL-STD-461F	Radiated Emissions and Susceptibility Conformance
	MIL-STD-810G	Protection against humidity, fungus, and salt spray Conformance
	MIL-STD-901D	Protection against shock Conformance
	MIL-STD-167-1	Protection against vibration Conformance
	MIL-STD-1472G	Human Factors Conformance
	MIL-I-45208	Quality System Conformance
	IPC-A-610 II	Acceptability of Electronics Assemblies Certification
European Standards	ISO 9001:2008 (Registration No. 74 300 3983)	
	"CE" Compliant	
	Restriction of Hazardous Substance (RoHS) Directive Compliant	
	Regulation on Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH) Directive Compliant	
International Standards	IEC 61000-4-2 and EN61000-4-2	ESD 8Kv contact and 15Kv air Conformance
	IEC 61000-4-3 and EN61000-4-3	Radiated Emissions and Susceptibility Conformance
	IEC 61000-6-3 and EN61000-6-3	Electromagnetic Compatibility Conformance
