

Notes:

- 1.) All Dimensions are in inches.
- 2.) The Model Number KIA6800 Series is available with choice of cabling options. Standard configurations are shown in "Ordering Information". Consult Factory for other options.
- 3.) See Sheet 2 for Panel Cut Out Detail.
- 4.) Unit separates for installation into customer panel (the key matrix separates from the interface circuit board) by removing nylon nut from spacer, and separating connector.
- 5.) Refer to CTI Applications Note 811666 for description of ARROWMOUSE™ operation.
- 6.) Backlighting is powered through the PS/2 port. The dimming of the backlight LEDs is done using onboard keys. See CTI Document 811675 for details. Power Requirements: 100 mA @ 5 VDC (typical).
