

<b>Analog Motion Controller</b>	<b>Compumotor JS6000 Series Voltage Guide for the AT6250/AT6450 Servo Controllers</b>
<b>Motion Controller Model Number</b>	<b>Description</b>
Available Models	Require a +5V input. Have a 10 foot unterminated cable; no connector.
M2003-N24-P1483	0-2.5V output, three momentary switches on enclosure, two axis joystick.
M2003-N24-P1484	0-5V output, three momentary switches on enclosure, two axis joystick.
M2003-N3-P1411	0-2.5V output, three momentary switches on enclosure, one momentary pushbutton switch on two axis joystick.
M2003-N3-P1412	0-5V output, three momentary switches on enclosure, one momentary pushbutton switch on two axis joystick.
M2003-N82-P1402	0-5V output, three momentary switches on enclosure, three axis joystick.
M2003-N33-P1417	0-2.5V output, three momentary switches on enclosure, one momentary pushbutton switch on two axis joystick.
M2003-N33-P1418	0-5V output, three momentary switches on enclosure, one momentary pushbutton switch on two axis joystick.

Analog Motion Controller	Compumotor JS6000 Series Voltage Guide for the AT6250/AT6450 Servo Controllers
Motion Controller Model Number	Description
<b><u>Subject to Availability</u></b> <b>Call Factory</b>	Require a +5V input. Have a 10 foot unterminated cable; no connector.
M2003-N24-P0283	0-2.5V output, two latching switches, one momentary switch, two axis joystick.
M2003-N24-P0284	0-5V output, two latching switches, one momentary switch, two axis joystick.
M2003-N3-P0322	0-2.5V output, three latching switches, one momentary push-button switch on a two axis joystick.
M2003-N3-P0323	0-5V output, three latching switches, one momentary push-button switch on a two axis joystick.
M2003-N3-P0511	0-2.5V output, two latching switches, one momentary switch, one push-button switch on a two axis joystick.
M2003-N3-P0512	0-5V output, two latching switches, one momentary switch, one push-button switch on a two axis joystick.
M2003-N82-P1000	0-5V output, three latching switches, three axis joystick.
M2003-N82-P1001	0-5V output, two latching switches, one momentary switch, three axis joystick.
M2003-N82-P1002	0-5V output, three momentary switches, three axis joystick.
M2003-N33-P1117	0-2.5V output, two latching switches, one momentary switch, one push-button switch on a two axis joystick.
M2003-N33-P1118	0-5V output, two latching switches, one momentary switch, one push-button switch on a two axis joystick.
